Welcome to Prague

The European Urology Residents Education Programme is now in its second decade of continued success as a comprehensive course for final-year residents. Since 2003, the European School of Urology (ESU) has provided European residents-in-training with this extensive multi-day programme.

The course is designed to offer a comprehensive overview of urological topics, while also allowing for a high degree of interaction. The five required modules are taught on a rotating basis, with mornings reserved for state-of-the-art lectures and afternoons filled with discussions, videos and test-your-knowledge sessions. The faculty that will teach the modules are renowned experts in their field, selected also for their teaching abilities.

At EUREP17, you can look forward to an intense week of comprehensive training in urology. This will be accomplished through a fully-packed theoretical lesson schedule.

Besides these compulsory modules, we’re happy and proud to offer for the eighth year a practical “hands-on training session”, thanks to the kind support of Olympus. These sessions have always been hugely appreciated by the participants. We have over 24 training stations, with an experienced tutor for each station.

This year’s programme consists of hands-on interaction with state-of-the-art equipment in laparoscopy (15 stations), ureteroscopy (URS) - (5 stations) and transurethral resection (TUR) - 4 stations.

In addition to the regular programme, the EUREP also provides the opportunity for residents to hone their laparoscopic, ureteroscopic and transurethral resection skills. We are particularly grateful to Olympus, whose sponsorship of the hands-on-training (HOT) sessions is an essential and popular part of the annual programme. The training courses are offered at various levels of expertise. With one tutor to every participant, the training sessions give each resident optimal guidance.

Please also note that since 2015, travel costs will no longer be reimbursed. The course and accommodation will remain free of charge for European attendees.

We look forward to welcoming you from 1-6 September at the 15th EUREP: where ambition meets experience.

Joan Palou
Chairman of the ESU

Hein van Poppel
EAU Adjunct Secretary General responsible for Education

Domenico Veneziano
EUREP HOT Coordinator

On average, each trainee will receive 55 mins of training, and the exercises are adapted to your skill level. For the novice surgeon, the programme serves as an introduction. The more experienced trainee can learn some tips and tricks from the “veteran” tutors.

If you meet the criteria and you are selected for this unique event, make sure you get the most out of this unique opportunity to maximise your urological knowledge and hone your hands-on-training skills.

1-6 September 2017  3
During the course you will always be located in the same room. Each day a different module will be held in your room.

**Friday, 1 September 2017**

sfshariat@gmail.com

Penile cancer

08.30 - 08.45  
Local Treatment  
M. Roupret

08.45 - 09.00  
Lymph node management and treatment of systemic disease  
F. Liedberg

Non-muscle invasive bladder cancer

09.00 - 09.30  
Diagnosis, staging and risk stratification  
M. Roupret

09.30 - 10.00  
Management of low, intermediate and high-risk disease  
F. Liedberg

10.00 - 10.30  
Upper urinary tract cancer. Diagnosis and treatment  
M. Roupret

Muscle invasive bladder cancer

11.00 - 11.30  
Surgical and non-surgical treatment options  
F. Liedberg

11.30 - 12.00  
( Neo)adjuvant chemotherapy and the management of metastatic disease  
S.F. Shariat

12.00 - 12.30  
Cases on muscle invasive bladder cancer  
S.F. Shariat

Testis cancer

14.00 - 14.30  
Testis cancer: Diagnosis and treatment of stage I disease  
M. Hora

14.30 - 15.00  
Testis cancer: management of metastatic disease  
S.F. Shariat

Renal cancer

15.00 - 15.30  
Diagnosis and management of T1-2 disease  
M. Hora

15.30 - 16.00  
Management of locally advanced and metastatic disease  
M. Hora

Miscellaneous cancer cases discussion

16.30 - 18.00  
Chair M. Roupret

Cases on renal cancer  
M. Hora, discussants: faculty & students

Cases on testis cancer  
S.F. Shariat, discussants: faculty & students

Cases on bladder cancer  
F. Liedberg, discussants: faculty & students
Module 2 - Prostate cancer and male voiding LUTS

Chair:

Prof. Markus Graefen
Universitätsklinikum Hamburg-Eppendorf, Dept. of Urology
Martinistraße 52
20246 Hamburg, Germany
graefen@uke.uni-hamburg.de

Faculty:

**Prostate cancer**

08.30 - 09.30
Screening and early detection and staging
S. Joniau

09.30 - 10.30
Treatment for localised disease:
Active surveillance, surgical treatment, radiation, focal therapy
M. Graefen

11.00 - 12.00
Locally advanced and metastatic prostate cancer
A. De La Taille

12.00 - 12.30
Prostate cancer cases: what would you do?
A. Briganti

14.00 - 14.30
Treatment of castration resistant prostate cancer and new agents
A. Briganti

**Male voiding LUTs**

16.30 - 15.15
Medical treatment male voiding LUTs
S. Joniau

15.15 - 16.00
Surgical treatment of male voiding LUTs
A. De La Taille

16.30 - 17.45
Prostate cancer and LUTs cases, surgery and MCQ's
M. Graefen

17.45 - 18.00
Summary

1-6 September 2017  7
Module 3 - Andrology, stones and upper tract endourology

Chair:

Prof. Evangelos Liatsikos
General University Hospital of Patras
Dept. of Urology
Rion, Patras
26500 Patras, Greece
liatsikos@yahoo.com

Faculty:

Mr. Suks Minhas

Dr. Cesare Marco Scoffone
Cottolengo Hospital
Dept. of Urology
Via Cottolengo 9
10152 Torino, Italy
scoof@libero.it

Andrology

08.30 - 09.00 Physiopathology diagnosis and treatment of erectile dysfunction
I. Moncada

09.00 - 09.30 Penile curvature
I. Moncada

09.30 - 10.00 Priapism and metabolic syndrome
I. Moncada

10.00 - 10.30 Cases - Erectile dysfunction

11.00 - 11.30 Male infertility diagnosis and treatment
S. Minhas

11.30 - 12.00 Surgery for male infertility and vasectomy
S. Minhas

12.00 - 12.15 Male hypogonadism
S. Minhas

12.15 - 12.30 Cases - Infertility

Stones

14.00 - 14.30 ESWL treatment of urolithiasis
E. Liatsikos

14.30 - 15.00 Aetiology, medical management and prophylaxis of urolithiasis
C.M. Scoffone

15.00 - 15.30 Percutaneous and open surgery
E. Liatsikos

15.30 - 16.00 Cases

Upper tract endourology

16.30 - 17.00 Ureteroscopic stone manipulation
C.M. Scoffone

17.00 - 17.30 Stents in the urinary tract
E. Liatsikos

17.30 - 18.00 Endourology in UPJ obstruction
C.M. Scoffone
Module 4 - Functional urology

Chair:

Mr. Jay Khastgir
Morriston Hospital
Dept. of Urology
SA6 6NL Swansea, United Kingdom
jkhastgir@gmail.com

Faculty:

Dr. John Heesakkers
Radboud UMC
Geert Grooteplein 10
6525 GA Nijmegen, The Netherlands
john.heesakkers@radboudumc.nl

Prof. Georg Kasyan
Moscow State University of Medicine and Dentistry, Dept. of Urology
Vucheticha Str. 21
127206 Moscow, Russia
g.kasyan@inbox.ru

Prof. Karl-Dietrich Sievert
University of Rostock
Dept. of Urology
Ernst-Heydemannstraße 6
18057 Rostock, Germany
kd_sievert@hotmail.com

08.30 - 09.15 Introduction, epidemiology & terminology non-invasive assessment of lower urinary tract symptoms & incontinence
J. Khastgir

09.15 - 10.00 Fundamentals of Urodynamics
J. Heesakkers

10.00 - 10.30 Nocturia
K-D. Sievert

11.00 - 11.45 Overactive bladder
J. Khastgir

11.45 - 12.30 Stress urinary incontinence in women, complications and their management
G. Kasyan

14.00 - 14.45 Post-prostatectomy incontinence
K-D. Sievert

14.45 - 15.30 Pelvic pain and its management
G. Kasyan

15.30 - 16.00 Interactive cases: Functional urology
G. Kasyan & K-D. Sievert

16.30 - 17.00 Neurogenic bladder dysfunction: Assessment
J. Heesakkers

17.00 - 17.45 Neurogenic bladder dysfunction: Management
J. Khastgir

17.45 - 18.00 Interactive cases: Neurourology
J. Heesakkers & J. Khastgir
Module 5 - Paediatric urology, trauma and infection

Chair:

Prof. Dr. Christian Radmayr
Medical University Innsbruck
Dept. of Pediatric Urology
Anichstrasse 35
6020 Innsbruck, Austria

Sharpening Your Skills: TUR, URS, and Laparoscopy

As an essential part of the European Urology Residents Education Programme (EUREP) in Prague, intensive hands-on training will be delivered. The programme consists of hands-on interaction with state-of-the-art equipment in laparoscopy, ureteroscopy (URS) and transurethral resection (TUR) all of which is sponsored by Olympus. The workshop provides the participants with a unique opportunity to train under expert supervision basic techniques with specially designed training models. With a personal tutor per training station a fast learning effect can be expected. The courses in laparoscopy are specifically designed for individuals with minimal or no prior experience in laparoscopic suturing. Tutors will, of course, gladly adapt tasks for more experienced individuals. Basic techniques will be trained in a dedicated step-by-step programme including intracorporeal suturing depending on individual skill level. The training curriculum for the ureteroscopy workshop is designed by Prof. Olivier Traxer of Tenon Hospital, Paris. Residents will learn about the proper use of flexible ureteroscopes using a variety of stone disposables in order to remove kidney stones. The course in transurethral resection of the prostate gives residents the great opportunity to learn more about the basics of high-frequency surgery, the instruments needed, as well as tips.

Laparoscopy Training: Lap training is divided into basic and intermediate training.

**Basic training:** The basic training will follow the curriculum of the European Basic Laparoscopic Urological Skills (EBLUS) training. This training is mandatory if you wish to do the EBLUS exam (Further information available on page 12)

**Intermediate training:** For those who have already passed the EBLUS or BLUS exam we have an intermediate course. Participation in the intermediate course means that you are not eligible to participate in the EBLUS exam!

**Basic Training Modules - Laparoscopy**
- Introduction to the equipment
- Handling the 2d camera
- Follow the 4 training box exercises
- Peg transfer
- Cutting a circle
- Needle guidance
- Single knot tying

During the exercises you will train your bimanual dexterity, depth perception and suturing skills.

As the training is one on one this allows the tutor to adapt the training to your skill level.

- Additional exercises (if applicable)

**Intermediate Training Modules - Laparoscopy**
- Introduction to the equipment
- Performing an anastomosis or major vessel repair
- Advanced suturing skills

Laparoscopy Tutors
- K. Ahmed, London (GB)
- M. Arnolds, Apeldoorn (NL)
- S. Barmoshe, Brussels (BE)
- C.S. Biyani, Leeds (GB)
- J.M. Gaya, Barcelona (ES)
- F. Greco, Rocca di Neto (IT)
- B. Petrut, Cluj Napoca (RO)
- G. Pini, Milan (IT)
- O. Rodriguez Faba, Barcelona (ES)
- R. Sanchez Salas, Paris (FR)
- A. Skolarikos, Athens (GR)
- L. Tunc, Ankara (TR)
- D. Veneziano, Reggio Calabria (IT)
- C. Wagner, Gronau (DE)
- P. Zondervan, Amsterdam (NL)

The hands-on-training workshops are gratefully supported by our industry partner

OLYMPUS
Your Vision, Your Future
Hands-on Training courses

Coordinator: D. Veneziano, Reggio Calabria (IT)

Training Modules - URS

Access of the upper tract
• Insertion of flexible ureteroscope
• Placement of guidewires and access sheaths
• Catching and removal of kidney stones
• Stent positioning

State-of-the-art equipment with training models for endourology
• Handling and steering of flexible ureteroscope
• Training the procedure under close to reality anatomical conditions
• Working in a team - surgeon and assistant

Training Modules - TUR

Resection basics
• Getting familiar with TURis
• Insertion of the resectoscope
• How to handle the equipment

Learn more about bipolar high-frequency surgery
• Step-by-step procedure training
• Anatomical landmarks and orientation
• Resection technique: tips and tricks
• Pros and cons of different resection electrodes

Your activities maybe recorded for the purposes of data collection

URS Tutors
G. Kamphuis, Amsterdam (NL)
A. Ploumidis, Athens (GR)
S. Proietti, Milan (IT)
B. Somani, Southampton (GB)
T. Tokas, Tirol (AT)

TUR Tutors
V. Eret, Prague (CZ)
S. Haensel, Rotterdam (NL)
M. Klitsch, Vienna (AT)
S. Vesely, Prague (CZ)

The hands-on-training workshops are gratefully supported by our industry partner

OLYMPUS

Your vision. Our future.
Demonstrating your basic laparoscopy skills: E-BLUS exam
At EUREP ESU is offering the standardised and validated examination of the European training programme in Basic Laparoscopic Urological Skills (E-BLUS) during EUREP, kindly hosted by Olympus.

In this exam your psychomotor skills such as depth-perception and bimanual dexterity will be tested and your mastery of basic laparoscopy skills such as instrument handling, pattern cutting and intracorporeal suturing will be assessed by experienced laparoscopist-examiners.

The exam is aimed at candidates with intermediate laparoscopy experience who have sufficiently trained to meet the exercises time and quality criteria. The E-BLUS training programme, including instructional videos of the exercises can be found at http://hot.uroweb.org/. Passing the exam serves as a recommendation to continue your laparoscopy training by assisting laparoscopic procedures in the OR. If you register your interest for this exam through the Post-registration website you will receive an email with further and more detailed information.

Demonstrating your basic URS skills: EST-S1 exam
This year in EUREP we will introduce the novel upper urinary tract training curriculum which will focus on basic stone treatment skills. This is similar to EBLUS but in the field of endourology. Again it is kindly supported by our industry partner Olympus.

In exercises 1 and 2 you will be given the chance to train your navigation skills with flexible and rigid cystoscopes. In exercises 3 and 4 you will focus on semi-rigid and flexible ureteroscopes and their operative channels.

During the training session you will be pre-evaluated by your Hands on training URS tutor who will suggest whether or not to take part in the EST s1 examination on-site.

Passing the exam serves as a recommendation to continue your URS training by assisting procedures in the OR.

If you register your interest for this exam through the Post-registration website you will receive an email with further and more detailed information.
Accessibility Clarion Congress Hotel
The price for a taxi from the airport to the Clarion Congress Hotel is approximately 850 Czech koruna (ca. €35,00). You can also take the bus/metro from the airport:
- Bus station at Airport
  - take bus no. 100 to underground station Zlicin
  - take line B (Yellow line) to station Vysocanska
The metro station is located under a shopping centre (Galerie Fenix). The hotel can be accessed from the shopping centre during opening hours by going to the first floor. After closing you must exit directly on to the street, please go to Freyova 33
We would recommend that before you travel you visit the following websites;
• http://www.dpp.cz/en/
• http://www.myczechrepublic.com/prague/transportation.html
Transportation to and from the airport is at your own cost.

Accommodation
Accommodation at the Clarion Congress Hotel is free for all selected European participants based on two sharing a room. Non-European participants pay for their own accommodation. We cannot guarantee a shared room with the person you have selected in the online registration system, as this person may not be selected for the course. In that case the ESU office will allocate another resident for you to share with. In case a participant prefers to stay in a single room, there is a surcharge of 25 EUR per night.

Accreditation
The European Urology Residents Education Programme is NOT accredited within the EU-ACME programme by the European Board of Urology in compliance with the EBU/UEMS regulations.

EBU Written Examination
The FEBU exam will not take place directly after the 15th EUREP course in Prague. The FEBU online written examination will take place on Friday 17 November 2017. More information available on the EBU website http://www.ebu.com

Certificate of attendance
After the course and on completion of all evaluation forms participants can print their certificate of attendance through the website.

Language
The meeting will be conducted in English.

Registration
Registration will be open from Thursday, 31 August. Therefore you can pick-up your registration documents upon arrival in the Clarion Congress Hotel (registration desk is located on the 2nd floor).

Social programme
• Welcome reception
  Friday evening, 1 September 2017
  18.00 - 19.30
  Location: Congress foyer, Clarion Congress Hotel
• Barbecue and karaoke
  Sunday evening, 3 September 2017
  18.30 - 22.00
  Location: Letinsky Castle
  This event will be organised especially for all participants of the course.
  Buses will leave from the front of the Clarion Congress Hotel at 18.00

Travel
Arrival date: Thursday, 31 August 2017
Departure date: Wednesday afternoon, 6 September 2017
Please note the following: The course finishes at 12.30. It is not permitted to leave earlier!

From 2015 European participants in EUREP will no longer have their travel costs reimbursed. This means that all selected participants must pay for their travel to and from Prague. The EAU/ESU will continue to cover the cost of accommodation for European residents in a shared room as well as the cost of the course (incl. lunches, coffee breaks).

Venue
The EUREP will be organised in Prague, Czech Republic. The venue at the Clarion Congress Hotel provides excellent facilities and the four-star hotel has all the necessary facilities needed for both the scientific programme and social activities.
